

We greatly appreciate your help in keeping this list up to date for women around the world who are seeking emergency contraception. Please let us know if you have any changes to this list.

This list contains dedicated ECPs that are currently available in each country. It does not include pills that are licensed but not actually sold.

¹Optinor is only available from family planning clinics

* available directly from a pharmacist without a prescription

** available over the counter

† These are one-pill, single dose formulations (one pill = 1.5mg levonorgestrel)

§ Emergency contraception is available from certain pharmacists without a prescription in Alaska, California, Hawaii, Maine, Massachusetts, New Hampshire, New Mexico, Washington State, and Vermont. Plan B One-Step, Next Choice and Levonorgestrel Tablets are available OTC for those 17 and older.

§§ Plan B is now available over the counter in most provinces in Canada. However, in British Columbia, Quebec and Saskatchewan, Plan B is sold behind the counter and must be requested from a pharmacist.
